Blasphemy

Ocultan

God is dead
When someone fills your heart instead
Your soul's on fire, all your needs
How can they call it blasphemy
Love is nature
So you're praying for salvation
For the hearts to understand
That is you, my new religion is you
They say this love is blasphemy
It is blasphemy, it is blasphemy
But my new religion is you
Faith is crime
When all you love is one the line
Your script's bleeding
Incomplete and blamed for immorality

Love is nature
So you're braking with tradition
In this godforsaken land
That is you, my new religion is you
They say this love is blasphemy
It is blasphemy, it is blasphemy
But my new religion is you, that is you
Blasphemy, god is dead, blasphemy
That is you, my new religion is you
They say this love is blasphemy
It is blasphemy, it is blasphemy
But my new religion is you, that is you
