

Barcelona

Plastiscines

You can use anyone but it won't be long
'Til somebody finds there's something wrong
Now four seasons have passed, buried at last
And covered in ash our love is gone Say whatever you want but the beat goes on
It's better for us to stay away
Wait, I have enough faith, courage and strength
Just to move on and meditate Let's dance, let's get down in Barcelona
I like romancing but I don't wanna
Let's get down in Barcelona
Tonight we're dancing like no tomorrow Now just like before we're both on the floor
And we will get out of this another time
And as we're shaking hands we understand
You go your way and I go mine Let's dance, let's get down in Barcelona
I like romancing but I don't wanna
Let's get down in Barcelona
Tonight we're dancing like no tomorrow Let's get down in Barcelona
I like romancing but I don't wanna
Let's get down in Barcelona
Tonight we're dancing like no tomorrow Falling down and falling down
Touch the ground, touch the ground
Going mad, going mad
Not too bad, not too bad Falling down and falling down
Touch the ground, touch the ground
Going mad, going mad
Not too bad, not too bad Falling down and falling down
Touch the ground, touch the ground
Going mad, going mad
Not too bad, not too bad Falling down and falling down
Touch the ground, touch the ground
Going mad, going mad
Not too bad, not too bad Let's get down in Barcelona
I like romancing but I don't wanna
Let's get down in Barcelona
Tonight we're dancing like no tomorrow Let's get down in Barcelona
I like romancing but I don't wanna
Let's get down in Barcelona
Tonight we're dancing like no tomorrow Let's get down in Barcelona
Going mad, going mad
Not too bad, not too bad Let's get down in Barcelona

Going mad, going mad
Not too bad, not too badFalling down and falling down
Touch the ground, touch the ground
Going mad, going mad
Not too bad, not too bad
