Barcelona

Plastiscines

You can use anyone but it won't be long

'Til somebody finds there's something wrong

Now four seasons have passed, buried at last

And covered in ash our love is goneSay whatever you want but the beat goes on

It's better for us to stay away

Wait, I have enough faith, courage and strength

Just to move on and meditateLet's dance, let's get down in Barcelona

I like romancing but I don't wanna

Let's get down in Barcelona

Tonight we're dancing like no tomorrowNow just like before we're both on the floor

And we will get out of this another time

And as we're shaking hands we understand

You go your way and I go mineLet's dance, let's get down in Barcelona

I like romancing but I don't wanna

Let's get down in Barcelona

Tonight we're dancing like no tomorrowLet's get down in Barcelona

I like romancing but I don't wanna

Let's get down in Barcelona

Tonight we're dancing like no tomorrowFalling down and falling down

Touch the ground, touch the ground

Going mad, going mad

Not too bad, not too badFalling down and falling down

Touch the ground, touch the ground

Going mad, going mad

Not too bad, not too badFalling down and falling down

Touch the ground, touch the ground

Going mad, going mad

Not too bad, not too badFalling down and falling down

Touch the ground, touch the ground

Going mad, going mad

Not too bad, not too badLet's get down in Barcelona

I like romancing but I don't wanna

Let's get down in Barcelona

Tonight we're dancing like no tomorrowLet's get down in Barcelona

I like romancing but I don't wanna

Let's get down in Barcelona

Tonight we're dancing like no tomorrowLet's get down in Barcelona

Going mad, going mad

Not too bad, not too badLet's get down in Barcelona

Going mad, going mad

Not too bad, not too badFalling down and falling down

Touch the ground, touch the ground

Going mad, going mad

Not too bad, not too bad
