27 Steps

Cartel

And I can't unwind with you hanging 'round
And I feel just like a vine
Oh, if you have to leave me here then I invite it
'Cause I've been twisted in your words
I'm better off left alone
Hey, are you with me? Hey, are you with me?
27 steps to your front door
Hey, are you with me? Hey, are you with me?
I can't stand your face anymore
Should've figured out then what you lose
But it's too late to fix what's broken
Hey, are you with me? Hey, are you with me?
27 steps and I can't
Believe I was so naive
And my heart is racing, I can barely breathe
Ooh, if you have to take it here then I've decided
That I've been stepping in your words
I should've seen it all along
Hey, are you with me? Hey, are you with me?
27 steps to your front door
Hey, are you with me? Hey, are you with me?
I can't stand your face anymore
Should've figured out then what you lose
But it's too late to fix what's broken
Hey, are you with me? Hey, are you with me?
27 steps and I'm gone
Are you with me? Are you with me?
27 steps to your front door
Hey, are you with me? Hey, are you with me?
I can't stand your face anymore
Should've figured out then what you lose
But it's too late to fix what's broken
Hey, are you with me? Hey, are you with me?
27 steps
Are you with me? Are you with me?
27 steps to your front door
Are you with me? Are you with me?
27 steps and I'm gone
