The Hellions Genesis

Incantation

Spawned from the vortex of death
Your microcosm that flows
In frozen veins, mirrorsYet immortal, with pride and faith
Night skies and blackened domains
We advance as a legion unbound
all fear and remorse are drownedEvery warrior joins thier echelonBy chant
By conjuration
By dagger
Create the scales of this celestial hydraWhispered dream speech that consumes
By chant
By conjuration
By daggerWe're at one with the beast
and we must feed
