One day in Maya calendar  
The Winter Solstice is open  
Like a gate to the Plumped Serpent  
For the Maya and the Toltec he returnSol volver, en la costa vimos su luz  
Quetzalcoatl, oh Senor del SolRide on Quetzalcoatl and you will reach another day  
When Capricorn will change the world  
Enter into 2012  
Ancient forecast of the Maya will be trueSol volver, en la costa vimos su luz
