Antimatter

Tricky

I'm antimatter
I don't matter
Cancer phones
Break my bonesI'm illusion
Sonic solution
Magic mind
Sonic pollutionI just detox
I just see lots
I see nothing
Show me somethingWe go round, round
We make it safe and sound
I try to break it down
AlrightWe go round, round
We make it safe and sound
I try to break it down
AlrightI have visions
Homo Sapiens
Fast I've grown
I think aloneI'm confusion
Evolution
I am a man cub
InstitutionI move forward
I make awkward
I just jump, jump
I just thump, thumpWe go round, round
We make it safe and sound
I try to break it down
AlrightWe go round, round
We make it safe and sound
I try to break it down
AlrightI go round, round
In my sound, sound
[Incomprehensible]
[Incomprehensible]Round, round
In my sound, sound
[Incomprehensible]
[Incomprehensible]I evolve
Then dissolve
Maintain my lies

'Til April fallsMy sea runs red
My trees are dead
My breath runs short
Please reportIs there someone out there?
Is there someone out there?
Do you receive me?
Do you receive me?We go round, round
We make it safe and sound
I try to break it down
AlrightWe go round, round
We make it safe and sound
I try to break it down
AlrightWe go round, round
We make it safe and sound
I try to break it down
AlrightWe go round, round
We make it safe and sound
I try to break it down
AlrightAlright
Alright
AlrightWe go round, round
We try to
We go round, round
Make it alright
