

# Do You No Harm

[Matt Corby](#)

I won't do you no harm, do you no harm  
I won't let them do you no harm, do you no harm  
The markings won't do you no harm  
Your bruises won't do you no harm I'm sick and tired got to get out and catch the morning dawn  
Let me back down and assume what I got left to say  
I'm too tired but I've barely even waited long  
I'm too down to be driving in the evening I got this feeling that we're tied up  
Do you feel like we're all wired up  
You only take from me  
You won't just wait with me I got this feeling that we're tied up  
Do you feel like we're all wired up  
You won't embrace me  
You won't escape me
