

# Graduation's Here

## The Fleetwoods

Graduation, graduation, graduation High school parties are over  
Things won't be the same  
The day to grow up finally came Graduation's here, graduation Our trips to the ocean  
Were so much fun  
Remember the games we almost won Graduation's here Our senior year and our one big sin  
Was the "senior skip" when we were all turned in  
The gaudy mischief had to come but now it's gotta go  
'Cause graduation's here and we'll soon be on our own Graduation, graduation, graduation Now we are walking  
down the aisle  
I'm cryin' inside but I'm tryin' to smile  
Goodbye friends, alma mater too Graduation's here, graduation  
Graduation, graduation, graduation
