

# DÃ©viation

## Heatsick

Out of chaos etched inside  
New way of thinking state of sublime  
Renewal, redemption this life is yours to form  
Revalue, and question abhor the common normsNew mind, new life  
Break away from standard thinking step outside the common normsBreak down deconstruct what's on the inside  
Redesign what you dislike  
Fall down when you reach the lowest point  
You see the world through different eyesErase your old life redeem your soul  
Come undone just let it grow  
Don't waste it, consume it, convert reality  
Give a life a facelift to fit your needsNew mind, new life  
Break away from standard thinking step outside the common normsBreak down deconstruct what's on the inside  
Redesign what you dislike  
Fall down when you reach the lowest point  
You see the world through different eyesThis is the way it feels  
Not what it used to beAbhor common norms  
Life's yours to form
