RAP:

I keep going down this path i only know,  
People always push me around thats no joke,

Theres only one remedy i can think of for you,  
If you only listened once, Baby you could've made it back  
I reject you out of luck, Your compares on track (oh no x3)Laughton:  
I kicked her down the road,  
Dont want to, Dont have to  
But everythings a place and i dont seem to,  
Love it, My family,  
You were on my mind  
Dont fake me, Dont play me,  
Ill smash you in the face an you wont like it,  
All i see is tragedies,  
You were on my mind,Koz you never know whats up,  
It only seems to make me think,  
That something just dont seem too right for me,

RAP:

Now i dont seem to care and i dont wanna fuss,  
But who are you to say that i cant be that one on the bus,  
People always talk about whats the colour of my hair,  
People always seem to know, Why do people even care,
