

Last Rose of Summer

Virgin Steele

There like an angel
A vision of light
The last rose of summer
The last rose of summer
Bloomed in my sight Alone with the wind
And the sun in her hair
I've never seen anything so fair And you're all I need
All I need Our love will never die
I walk with you
Last rose of summer's day
Make love to me Wake with the sunrise
When dreams walk the sky
She whispers, "I love you"
Then sings, laughs and cries A song of emotion
Borne of angel wings
Free as the seasons
Where love eternal springs And you're all I need
All I need Our love will never die
I walk with you
Last rose of summer's day
Make love to me Sweet love
Don't cry no more
I'm with you, babe
