Glow

Kym Marsh

catch a fire
on your fingertips
lonely is a place
but I don't go there anymore
my desire
I hear from your lips
wont you say again the
words my heart has waited for
when I feel
the summer in your smile
I could take the world on
anytime
everyday you make me glow
in the way you let me know
all the feelings you cant hide
sunshine on the inside
every day you make me see
there's no other love for me
I could never let you go
you make me
you make me glow
you make me glowwwww
see the mirror
I don't know myself
who's the girl who's staring back at me
she looks so strong
you get closer
there's nobody else
who can make me sure
I'm doing right not doing wrong

when I feel
the summer in your smile
I could take the world on
anytime
everyday you make me glow
in the way you let me know
all the feelings you cant hide
sunshine on the inside

every day you make me see
there's no other love for me
I could never let you go
you make me
you make me glowww
you make me
you make me glowww
when i feel
the summer in your smile
I could take the world on
I could take the world on
anytime
everyday you make me glow
in the way u let me know
all the feelings you cant hide
sunshine on the inside
every day you make me see
there's no other love for me
I could never let you go
you make me
you make me glowww
(repeat to Fade)
