

Let It Go (Laidback Luke Remix)

Dragonette

Let it go
we get a little faded the colors go
running out of all our clothes
and the flash dont light when the battery is low.
Well you can stamp a foot down through the floor
its a better plan by far
to blow off the roof and let in the dark
so we better get started
if I were you id let it go
and feel it all over inside like a chemical
cause to tell the truth I dont know
if its ever over
we don't need a cure for the weight of the world
cause its floating round in the universe
just swinging like its tied by a string that you hold
and let it go
we could dig a hole right down into
somewhere as deep as black and blue
and fill it with a crowd and the sound of right now
we could carve a tunnel under
and found just out how low it goes it goes
till we run out of dirt on the other side and we see the light
but if I were you
id look up
and find a place there in the sky were there's room enough
to spread it out
on the ground
for where you land when you come down
we dont need a cure for the weight of the world
cause its floating round in the universe
just swing it like its tied by a string that you hold
and let it go
Let it go
Let it go
Well you can stamp a foot down through the floor
its a better plan by far
to go off the roof and let in the dark
Let in the dark
Let in the dark

so we better get started
