Undercover Girl

Sharon Redd

Rebel inside
She's always in disguise
Destined to kill
What she thought was real

Yeah she's a high class baby
With some attitude
She's wicked and wild
And makes you go blind and grind

She's undercover Girl
That's all she's got
She's taking you high and makes your heartbeat stop
She's undercover girl

That's all she's got
She's making you fly
And head go round and round
She's undercover girl

Uptown angel
Fancy neighborhood
Overprotected
Always knew what's good

Now she has black boots
And the long blond hair
She steps in the room
And men turn to lousy fools

She's undercover Girl
That's all she's got
She's taking you high and makes your heartbeat stop
She's undercover girl

That's all she's got
She's making you fly
And head go round and round
She's undercover girl
