

Sick For So Long

Matisyahu

Sick for so long
I forgot this feeling
When ya wake up in the morning
With your heart still bleeding
With the wolves at ya heals
When ya spark is buried deeply
Burning from the bottom
Cracked open and weeping
That's how to sing softly
Brooms be on the street
Sweeping up the broken crowns
Glass in ya feet now
remove it from ya feet now
remove it from your back of the sidewalk Like fire and water
Sunrays on the ocean waves
Fathers and daughters
Now ya gotta relate
Sunrays on the ocean waves Hey kid
what it is
I know what it is
When ya got melodies
And heart disease
Ingredients that just won't let ya be
And ya just wanna sing m'
Air m' out and let m' breathe
words flow like honey
From the heavens
That ain't mine
What's that
Welling up in side
Here it comes
I'm about to come
With it
I'm gettin higher then a whip it
You know like from the dentist
It's time to go the distance
My vision is the sickest
You're eyes they sparkle
My love it glistens Like fire and water

Sunrays on the ocean waves
Fathers and daughters
Like fire and water
Sunrays on the ocean waves
Like fire and water You been floating away
Come back to yourself Wanna live my life from the inside out
