

# Luna Park

## Pet Shop Boys

Shadows on the sun  
Another night's begun  
It's always dark  
In Luna Park Wind across the moon  
Electric storms and soon  
A flying spark  
In Luna Park And when we're getting higher, we're happy  
Somebody's eating fire, we're happy  
The big wheel in the sky  
Will make you scream Come on, join a line  
The ghost train leaves on time  
It's always dark  
In Luna Park On the shooting range  
The plastic prizes never change  
So make your mark  
On Luna Park And when we're getting higher, we're happy  
Somebody's eating fire, we're happy  
The big wheel in the sky  
Will make you scream Thunder, I wonder?  
A storm will come one day  
To blow us all away  
Like dust on the moon In Luna Park  
It can't be dark  
Too soon A storm is coming soon  
Like dust on the moon Every night we go  
To the latest horror show  
And hear the screams  
In Luna dreams Fortune tellers muse  
On palms that bode bad news  
The future's dark  
In Luna Park And when we're feeling scared, we're happy  
With circuses and bread, we're happy  
The whirling fair machines  
Are all we need Thunder, I wonder?  
A storm will come one day  
To blow us all away  
Like dust on the moon In Luna Park  
It can't be dark  
Too soon Thunder, I wonder?

A storm is coming soon  
To blow us all away  
Like dust on the moonIn Luna Park  
It can't be dark  
Too soon
