

# Endless

## Etro Anime

You've been asking what will it take  
Will I ever again trust your face  
Forgive you for past mistakes  
Well why should I when my life's been based  
On instincts that aren't in your traits  
Some things we learned in the race I see the sound  
I will find my way  
It's endless it's endless  
I see the sound  
I will find my way  
It's endless it's endless A lifetime of color gone in one blink of black  
I'd rather live in gray than go back  
Why go back  
And all the pain that clothed me  
Reminds me your motives attack  
But baby there's no love in that  
You said you're dying you're dying to try this  
Well maybe you're gonna die trying  
Doing just enough just enough to get by  
And all these words they leave me exposed  
They'll never compare to the word  
I've yet to disclose I see the sound  
I will find my way  
It's endless it's endless  
I see the sound  
I will find my way  
It's endless it's endless  
I will find my way  
I will find my way
