

Fire and Ice (Elements Live)

Within Temptation

Every word you're saying is a lie, run away, my dear
But every sign will say your heart is dead
Bury all the memories, cover them with dirt
Where's the love we once had? Our destiny's unsure
Why can't you see what we had? Let the fire burn the ice
Where's the love we once had? Is it all a lie? And I still wonder why heaven has died
The skies are all falling, I'm breathing but why?
In silence I hold on to you and I
Closer to insanity buries me alive
Where's the life we once had? It cannot be denied
Why can't you see what we had? Let the fire burn the ice
Where's the love we once had? Is it all a lie? And I still wonder why heaven has died
The skies are all falling, I'm breathing but why?
In silence I hold on to you and I
You run away, you hide away
To the other side of the universe
Where you're safe from all that hunts you down
But the world has gone where you belong
And it feels too late so you're moving on
Can you find your way back home? And I still wonder why heaven has died
The skies are all falling, I'm breathing but why?
In silence I hold on to you and I
Every word you're saying is a lie
