Livin' It Up

Bill LaBounty

I finally got my life together
Scraped my heart up off the floor
My attitude is so much better
And I hardly ever cry the way I did beforeI been livin' it up
Having my self a time
Livin' it up
Right from the women to the wine
I'm living out all those fantasies I never did get to
Those crazy things I never got to doGot my self a new persona
Put a service on my phone
These days I live the way I wanna
And I do just fine as long as I'm not left aloneI'm livin' it up
Having my self a time
Livin' it up
Right from the women to the wine
I'm living out all those fantasies I never did get to
Those crazy things I never got to doEvery now and then I must confess
I'm not quite up to all this happiness
Sometimes I wonder if the place I'm at is where I do belong
Don't get me wrongI'm livin' it up
Havin' my self a time
Livin' it up
Right from the women to the wine
I been livin' out all those fantasies I never did get to
But it don't seem like living without you
