

Straight Between the Eyes

Anvil

(Lips, Reiner, Allison, Dickson)

Make out, watch out

That's what this is all about

Never get enough of it

Go down, look around

Tell me baby what you've found

Better get a hold of it

Unzip kinda hip

Babe I think I got your trip

You're trying to impress me

Look now saying "wow"

But you're gonna try somehow

Baby don't depress meIt's your big chance

Don't - don't blow it

You only get one try

Hit you straight between the eyesLipstick does the trick

Won't you give my friend a lick?

Ring around the collar

Squeeze tight, all your might

Can you make me feel alright?

Make me hoot and hollerYou only get one try

Hit you straight between the eyes

Straight between the eyes

Lookout!Got a morning tent, space for rent

This is how your time is spent

Sitting on a flagpole

So sweet in the sheets

Baby can you dig the beat

Pounding out a drum roll

Bang bang let it hang

I can't wait to tell the gang

All about you passion

What fun now I'm done

And I really got to run

You know it's all the fashionIt's your big chance

Don't - don't blow it

You only get one try

Hit you straight between the eyes

Straight between the eyes

Straight between the eyes
I'm gonna hit ya, hit ya, hit ya, hit ya
Straight between the eyes
