

# The Feeling

## Kutless

I feel like I can't stand still any more  
Are you with me?  
Got a mic, here's the band, now get your feet off the floor  
Can you hear me?  
I cannot run away, the feelings gotta stay  
While we rock all night long, hey, hey, hey, hey  
I think that we all know the reason that we show  
The world how real we are, hey, hey, hey, hey  
Turn it up, feel the beat and scream the lyrics you know  
Keep it coming  
The time is right let's unite to the rock and roll  
Everybody

I cannot run away, the feelings gotta stay  
While we rock all night long, hey, hey, hey, hey  
I think that we all know the reason that we show  
The world how real we are, hey, hey, hey, hey  
There's a greater meaning  
Behind the music that we are bringing  
'Cause tonight we are singing  
And together we know  
We cannot run away, the feelings gotta stay  
While we rock all night long, hey, hey, hey, hey  
I think that we all know the reason that we show  
The world how real we are, hey, hey, hey, hey, hey
