One Night

Joan Armatrading

I only see
The side of you you want to show
How do I know
How much to let my feelings go'Cause every night
I have the same good dream
You making love
And the face I seeLooks like me
When you hold me tight
It seems so realOh babe I know
I could make you stay
If I could have
One night
And I know I could make you stayReady for love
Don't you think of safety first
Be a hero
You could take a chance on me'Cause every night
Here comes my favorite dream
You making eyes
And that courting stanceIs right at me
When you hold me tight
It's all so realOh babe I know
I could make you stay
If I could have
One night
And I know I could make you stay
