It's About Time

Glenn Hughes

They say that nothin's better
To feel you in my arms
You know I'm out to get ya
So why won't you come back to me baby
And it's about timeI need you baby, I need you so
I love you baby, don't you know
Come to me woman, every night
You know what baby, you're clean outta sight
You're clean outta sight
Oh you're clean outta sightYou left this home with heartache
You really should have known
It's only for your own sake
So why can't you come back to me babyI need you baby, I need you so
I love you baby, don't you know
Come to me woman, every night
You know what baby, you're clean outta sight
You're clean outta sight
Oh you're clean outta sight
