

Dr. Octagon

Dr. Octagon

Live, November 6, 1996

At the Great Western Forum in Inglewood, CA

Dr. Octagonecologist and Chewbacca Uncircumcised

Perform with with Curt Kobane and Roger from ZappThe plane managed to land, the skeleton at the controls

A place called the Twilight Zone

Are extraterrestrials able to accomplish this?

I will explain but you'd become more puzzled at the possibilities

Earth ending trilogies, wacky stuff

Like gas passing dinosaurs while I stroll in circles blindfolded

Gave a lady some wrinkle cream out of rat poop

You might just laugh so hard your skull cracksBrain spills thick blood shooting out like a champagne cork

Females so horny and mean

Sucking scales off of live rattlesnakes

My boy gave his girl money for groceries, she got a new hairdo

Women like this could even make the devil commit suicide

Hung from a tree on Johannesburg with no parachute

Big-Bigfoot captured by UFO's

Haloos were found, at the landing sites, vanishingVanishing victims, kept alive on metal examining tables

Ex-Experts baffled they could survive the caustic exposure

To laser scalpels, green berets

Flowing cold heads in mechanical wombs

Radioactive constant temperature circular appendages

Cripples start shaking sending distress signals

We're not alone in the Twilight Zone"\"They waved among the trees at breakneck speed"

Keep it simple

"\"They waved among the trees at breakneck speed"

Keep it simpleBack in spiral, I roast humans like a gyro

New York, Atlanta, Africa to Cairo

Diplomat King Presidential offspring

Two miles from Westinghouse, with lights down South

Government chemical voodoo man miracle

Super disease your brain is more hysterical

My urine see paralyze your ability with space codes

Electrodes you're ready for a pap smearWax in your inner ear, doo-doo in your outer ear

Two cows a zebra will jump through your atmosphere

Giraffe-Funk will raise beam-in' through your trunk

Steam of Legion, to burn up in your anal region

Power contracting with bombs in his rectum factor

Utilized phonic like water in your Panasonic

Trip or slip or fall right into the earth pit, gamma ray toilet
 Microbes on your earth shitDr. Ludicrous, I turn into a octapus
 Grab eight species, isolate like an incubus
 Convert with probes, green shit is on your earlobes
 Attack what stomach with juice they call gastric
 Alien bugs with sickle cell, get they ass kicked
 Dermatologist examine more black cysts
 Radiation butter pouring down your sinus, it's Dr. Octagon"They waved among the trees at breakneck speed"
 Keep it simple
 "They waved among the trees at breakneck speed"
 Keep it simpleUtilize to abuse minds
 Slice head halves, let's probe the subconscious lobe
 Mathematical parabola, ACT test and just ex-plorating
 The creative arctic regions, or isolating cockpit
 A regular pitstop monitoring with enough fuel
 To fly a small dirigible to a place an oasis in a nebula, Earth
 Universal charting unseen atmosphere
 Requesting assistance, I speed through wavesLike a Concorde SST, then open aperture
 The shape of Octagon selects forward morphing
 It's the vertical Frankenstein
 Prototype of like Kervorkian, mind pedestrian controls
 Spend elevation gobble the ignorant supersonic cruise
 Hidin' to think, focus psychosis with Von Blowford
 Black lotus releases when life is flailing external
 Terminal update, thermal conducted power source suppliedMan on the moon pumps amps, or souped up cable
 boxes
 Getting up impossible
 The speaker needs another dose, concoct
 Concoct the scenario view, in a position of a coroner
 Describing current events bent on human dismemberment
 To a point of no resemblance
 We're not alone in the Twilight Zone"They waved among the trees at breakneck speed"
 Keep it simple
 "They waved among the trees at breakneck speed"
 Keep it simpleLike Enoch, I wear my cape, you can't destroy
 My impeccable caliber that makes your vision blur
 I drop particle X when having Rhythm sex
 Voodoo arrangers with the kids Power Rangers
 Make me see other men, gorillas masturbating
 With human strangers
 Legally through court, you're stung by a genital wart
 Chlamydia, through the city-aLos Angeles Texas has a serpent that's urgent
 For the mass appeal biomedical test your rectum
 Squeezing in banana peels
 Outwards backwards towards Boston

It's costing androids leaving humans with hemorrhoids
Thinking more of what they can't explore
Like the cartoon Donald Duck is giving fellatio on the floor
With Reed Richards, looking at The Thing's naked pictures
Taking Ex-Lax to relax with the needle and thread
Sewing up all the other buttcracks
In the industry there's no one who can mess with
Dr. Octagon, now serving coleslaw and pink pickles
"They waved among the trees at breakneck speed"
Keep it simple
"They waved among the trees at breakneck speed their bikes"
Keep it simple
"Detached his bike, and leaped to safety
Just before they collided with a tree"
