Amen

Destroy your newborn future
We are your neutron liarsI am machines and I work
Left to decay then I cut like you
I am not worth and I burned
When I'm away won't ever learnI shoot at you, you shoot at me
I see the things you can't believeDestroy your newborn future
We are your neutron liars
Destroy your newborn future
We are your neutron liarsI am deceive and I don't cut
For this debris and I am but
A bit deceive 'cause I hurt
A bit diseased 'cause I workI shoot at you, you shoot at me
I laugh at the things you can't believeDestroy your newborn future
We are your neutron liars
Destroy your newborn future
We are your neutron liarsWatch this when I work
Well I am diseased
When I cut like youI shoot at you, you shoot at me
I laugh at the things you can't believeDestroy your newborn future
We are your neutron liars
Destroy your newborn future
We are your neutron liarsWe are your neutron liars
We are your neutron liars
We are your neutron liars
