

Rain

Razah

Raindrops keep fallin' on my head
But thank God cause' it's just
Hidin' the tears from my face
Since you've been gone
I'm so out of place
And I need you here babe Lord, give me a sign
Show me the light
Cause this love I have to fight
Shes on my mind
All the time
To stay afloat I'll try [Chorus:]
Let the rain fall down
Take me away
Cause I don't wanna be without you
Girl I can't sleep
Without you here
So let the rain take me away My emotions girl
Are running wild
I feel like a little child
I need your smile
To brighten up my life
I need to look deep in your eyes I wanna know if this is real
Cause this can't be happening to me
Pinch me please
Tell me it's a dream
Cause I don't wanna feel like this [Chorus:]
Let the rain fall down
Take me away
Cause' I don't wanna be without you
Girl I can't sleep
Without you here
So let the rain take me away When you left
You took my heart from me
You mean the world to me [Chorus:]
Let the rain fall down
Take me away
Cause I don't wanna be without you
Girl I can't sleep
Without you here

So let the rain take me away
