

# Spider

## Pushmonkey

One more spitting hole  
Warm injected invitro  
One more water hole  
Take a drink and go  
Mind on vertigo  
Nine-split thorax video  
Seed my water hole  
take a drink and go  
You're just like me  
and I'm like you  
You want it all

And I want you to tie a noose again

I watched you take her take a walk I walk her like a spider  
I take you watched her take a walk I walk her like a spider  
To my spitting hole

Get my taste and then I go

I watched you take her take a walk I walk her like a spider  
I take you watched her take a walk I walked her like a spider

Face my spitting hole  
Mind on vertigo  
Seed my water hole  
Take me invitro  
You're just like me  
and I'm like you  
You want it all

And unlike you I'm tied and noosed again
