The Love We Make

Rodney Atkins

I'm not the man, you see in all those movies
Or read about in all those fashion magazines
And I won't build you monuments
Or fill your purse with rubies, now baby, that's not me
But I will hold you while you're sleeping
And I will be there when you wake
And we can fill up the whole world
With all the love, we make
I may never be a man of great position
Never be a new aged sensitive guy
But I will hear you every time you whisper
And I'll feel it when you cry
And I will hold you while you're sleeping
And I will be there when you wake
And we can fill the seven seas
With all the love, we make
Till the last day of forever
I know we'll be joined together
And I will stand by you
And I'll be loving you
And I will hold you while you're sleeping
And I will be there when you wake
And we can fill up the whole world
With all the love, we make
All the love, we make baby
All the love, we make
