

# Do You Love Me

[Amanda Jenssen](#)

Truth be told simple and bold I think you're special  
We can roll like a team you know what I mean  
See I'm not gonna mess around and I'm not gonna let you down  
Cause I do love you  
This I know, this I know Money makes the world go around  
People will be people always  
Baby what comes up comes down  
This I know, so here I go  
Do you love me, love me?  
Do you love me, love me?  
Do you love me baby? Hit or miss guess what it is you are that someone  
Time end the ruff the real stuff  
Now if a good man's hard to find  
Then luck is a friend of mine 'Cause I do love you  
This I know, this I know Money makes the world go around  
People will be people always  
Baby what comes up comes down  
This I know, so here I go  
Do you love me, love me?  
Do you love me, love me?  
Do you love me, baby? Lalalala?  
Hey hey oooh Money makes the world go around  
People will be people always  
Baby what comes up comes down  
This I know, so here I go  
Do you love me, love me?  
Do you love me, love me?  
Do you love me, love me?  
Do you love me, love me?  
Do you love me, baby?
