Lazer Beam

Super Furry Animals

[Incomprehensible] a radical new vision
No more imperial colonial bastards
No more romantic comedies
This is a fanfare introduction
To a high powered purposeful themeTake a shine of our lazer beam
And we'll cleanse all the evil within you
Take a shine of our lazer beam
And we'll cleanse all the evil within youTake a shine of our lazer beam
And we'll cleanse all the evil within you
Take a shine of our lazer beam
And we'll cleanse all the evil within youThe resistance in the distance
Creeping closer, have no fear
Land in anguish, we escape it
In our rocket, propelled spaceshipTake a shine of our lazer beam
And we'll cleanse all the evil within you
Take a shine of our lazer beam
And we'll cleanse all the evil within youTake a shine of our lazer beam
And we'll cleanse all the evil within you
Take a shine of our lazer beam
And we'll cleanse all the evil within youHuman being, human doing
Human error, human terror
Human nature, human hate you
Human crying, human leavingTake a shine of our lazer beam
And we'll cleanse all the evil within you
Take a shine of our lazer beam
And we'll cleanse all the evil within youTake a shine of our lazer beam
And we'll cleanse all the evil within you
Take a shine of our lazer beam
And we'll cleanse all the evil within youWe will conquer Utopia in space chariotsTake a shine of our lazer beam
And we'll cleanse all the evil within you
Take a shine of our lazer beam
And we'll cleanse all the evil within youTake a shine of our lazer beam
And we'll cleanse all the evil within you
Take a shine of our lazer beam
And we'll cleanse all the evil within youTake a shine of our lazer beam
And we'll cleanse all the evil within you
Take a shine of our lazer beam
And we'll cleanse all the evil within youTake a shine of our lazer beam
And we'll cleanse all the evil within you

Take a shine of our lazer beam
And we'll cleanse all the evil within youPoint your random finger, point it to the sky
Point your random finger, we will electrify
Human kind loves money, we just love to fly
So point your random finger, come on and testify
