

# I'm In Love

## Lionel Richie

Ooh, oh, oh, say na, na, na, na, I am in love  
Na, na, na, na, I am in love  
Na, na, na, na, I am in love  
No tears, no tears, no more, I'm done crying now  
No pain, no pain, said I found another way  
No games not like before, not up here on this cloud  
No time for yesterday, let me explain  
I got a new woman  
Loving me in every way that she can  
All she wanna be is part of my plan  
Safe to say that I'm in a better way, a better way, hey  
You got a new woman  
Loves to walk around just holding my hand  
Cupid must have found us loving like that, loving this woman  
Loving this romance, does anybody understand  
That I'm in love  
And I think about a real thing  
Kind of love that makes your heart sing  
You got me singing la, la, la, la  
Say I'm in love  
And I think I found the real thing  
Kind of love that makes your heart sing  
You got me singing la, la, la, la, la, la, I'm in love  
No stress, no fuss, no fine when I'm in your arms  
No time, no day, no night, so much more than okay  
Life is made of this, no her, no me, no way  
Let me explain  
I got a new woman  
Loving me in every way that she can  
All she wanna be is part of my plan  
Safe to say that I'm in a better way, a better way, hey  
You got a new woman  
Loves to walk around just holding my hand  
Cupid must have found us loving like that, loving this woman  
Does anybody understand  
That I'm in love  
And I think I found the real thing  
Kind of love that makes your heart sing  
You got me singing la, la, la, la

Say I'm in love  
And I think I found the real thing  
Kind of love that makes your heart sing  
You got me singing la, la, la, la, la, I'm in love  
I want the whole damn world to know  
Sure as the wind blows  
To carry the message far as it can go  
That I'm in love, yeah  
Nothing that can hold back this feeling  
True love in which we're dealing, baby, baby  
Na, na, na, na, I am in love  
Na, na, na, na, I am in love  
Na, na, na, na, I am in love  
That I'm in love  
And I think found the real thing  
Kind of love that makes your heart sing  
You got me singing la, la, la, la  
Say I'm in love  
And I think I found the real thing  
Kind of love that makes your heart sing  
You got me singing la, la, la, la, la, I'm in love
