Bailamos

Fergie

Whoo, whoo, whoo
Come on y'all, whoo
Keep movin' and movin' and movin' it
Keep movin' and movin' and movin' it
Keep movin' and movin' and movin' it
Keep movin' and movin' and movin' it
Like this, like that, like this, woah
Can you feel the life? It's a full moon tonight
So bring your appetite
To feast on the mood, drink up the groove
Feel the bass in your bones as the horns make you moan
Let the drums take the throne
And get in the mood, slide in the groove
'Cause I really wanna see ya dancin'
I really wanna see ya movin'
There's a party on the boat we cruise in, woah
If you're feelin' like I'm feelin' then move your body
Don't stop, don't stop move your body
Give it all you got now everybody, bailamos, bailamos
Feelin' like I'm feelin' then move your body
Don't stop, don't stop move your body
Give it all you got now everybody, bailamos
Now they're looking your way as your starting to sway
To the band as they play
So feast on the mood, drink up the groove
Move your hips, shake your thang
Tell the guitar to sing
Hear your fever bells ring, now piano moves
'Cause I really wanna see ya dancin'
I really wanna see ya movin'
There's a party on the boat we cruise in, woah
If you're feelin' like I'm feelin' then move your body
Don't stop, don't stop move your body
Give it all you got now everybody, bailamos, bailamos
Feelin' like I'm feelin' then move your body
Don't stop, don't stop move your body
Give it all you got now everybody, bailamos, bailamos
If you're feelin' like I'm feelin' then move your body
Don't stop, don't stop, move your body

Give it all you got now everybody, bailamos, bailamos
Feelin' like I'm feelin', I'm feelin' like I'm feelin'
I'm feelin' like I'm feelin', bailamos, whoo
