### PURE POWER Lyrics

Say you want a revolution  
Join the dance of dissolution  
Peace is nothing but illusion  
All I want is retribution  
When the Big Ben strikes the hour  
Triple fucking six horsepower  
Join in now and sing it louder  
Everything is pure...  
POWER

Turn the tide, close my eyes  
Sleeping sound that never dies  
Wake up once again to find  
The same despair that's in my mind  
File lthe gaps is what you need  
Feel the power of the speed  
Rise above you will succeed  
System crash CTRL + ALT + DLT

Say you want a revolution  
Join the dance of dissolution  
Peace is nothing but illusion  
All I want is retribution  
When the Big Ben strikes the hour  
Triple fucking six horsepower  
Join in now and sing it louder  
Everything is pure...  
POWER

Everything is...

Turn the tide, close my eyes  
Sleeping sound that never dies  
Wake up once again to find  
The same despair that's in my mind  
File lthe gaps is what you need  
Feel the power of the speed  
Rise above you will succeed

System crash CTRL + ALT + DLT

Say you want a revolution  
Join the dance of dissolution  
Peace is nothing but illusion  
All I want is retribution  
When the Big Ben strikes the hour  
Triple fucking six horsepower  
Join in now and sing it louder  
Everything is pure...  
POWER  
Everything is pure  
POWER
