Forever

Stan Bush

You brought a light, shining so bright into my life
Feelings like never before.
Since we're in love, I know my way.
Want you to stay with me like never before.Before you came, love was a game with open rules
Changin' it's mind every day.
I wish for luck, never break up
Always wake up and be in love.Let's keep the light
Forever true, forever you.
The light is in this diamond ring.
Forever you, forever, forever.Please hold me tight all day and night,
Take part of me
Become a part of my life.
Since we're in love, I know my way.
Want you to stay with me like never before.Let's keep the light ...The sound of your name
Is the beat of my heart.
Your name is the sound,
Makes my world go round.
With you, forever
You and me together, oh yeah.Let's keep the light
Forever true, forever you.
The light is in this diamond ring.
Forever you, forever, forever.
Ah, ah forever,
Yeah, yeah, ah, ah.
