

Champion Remix (feat. RM of BTS)

Fall Out Boy

Champion, champion I'm calling you from the future
To let you know we've made a mistake
And there's a fog from the past that's giving me, giving me such a headache And I'm back with a madness
I'm a champion of the people who don't believe in champions
I got nothing but dreams inside
I got nothing but dreams I'm just young enough to still believe, still believe
But young enough not to know what to believe in
Young enough not to know what to believe in, yeah If I can live through this
If I can live through this
If I can live through this
I can do anything
If I can live through this
If I can live through this
If I can live through this
I can do anything Champion, champion
Champion, champion I got rage every day, on the inside
The only thing I do is sit around and kill time
I'm trying to blow out the pilot light
I'm trying to blow out the light I'm just young enough to still believe, still believe
But young enough not to know what to believe in
Young enough not to know what to believe If I can live through this
If I can live through this
If I can live through this
I can do anything
If I can live through this
If I can live through this
If I can live through this
I can do anything Champion, champion
I can do anything
Champion, champion
And I can do anything Champion, champion
And I can do anything
Champion, champion
I can do anything! If I can live through this
If I can live through this
If I can live through this
And I can do anything If I can live through this
If I can live through this
If I can live through this

I can do anything If I can live through this
If I can live through this
If I can live through this
If I can live through this, I can do anything If I can live through this
If I can live through this
If I can live through this
If I can live through this I can do anything
I can do anything
I can do anything
I can do anything! Champion, champion
