

How Many Hours

Mltr (michael Learns To Rock)

Mothers giving birth to a little son
Crying in the rain of falling bombs
Father he is young but deep and wise
You see the fighter inside his eyes Hold me, cover my sight
This is no paradise
Don't show me
The evil sides of the world How many hours and how many days
Love is just slipping away?
How many seasons and how many years in tears?
How many centuries and how many lives in fear? People selling flowers like nothing's going on
Turning their backs on a world gone wrong
Children play around I guess they found some wheels
You see them running down the naked fields Hold me, cover my sight
This is no paradise
Don't show me
The evil sides of the world How many hours and how many days
Love is just slipping away?
How many seasons and how many years in tears?
How many centuries and how many lives in fear? How many hours and how many days
Love is just slipping away?
How many seasons and how many years in tears?
How many centuries and how many lives in fear?
