

Wind It (feat. Tony Lanez)

Justin Bieber

[Chorus: Justin Bieber]

Girl I love it when you wind it, wind it, wind it, wind it
You shut the club down, shut the club down, shut the club down, shut the club down

Girl I wanna see you wind it, wind it, wind it, wind it
Girl shut the club down, shut the club down, shut the club down, shut the club down

Girl I wanna see you wind it, wind it, please just press rewind it

Wind it, wind it, please just press rewind it

Wind it, wind it, please just press rewind it

Wind it, wind it [Verse 1: Tony Lanez]

Baby when you drop it low, you bring it back and drop it slow

I have to ask on my behalf, can you come here

And wind it back the whole way down?

Let me watch the whole way down

I, I say girl you know you got me moving

I can feel your body grooving, I can float, you pull me over

Let me bring your body back the whole way down

Let me watch the whole way down I'm northern lights, she a southern girl

Magazine love, be my cover girl

She's a fly gal, be my hover girl

Body fragile, ain't no time for her

See me I love to work, no one for other dirt

Them other women she don't see 'em like they lover there

Yeah they be hating cause I be there in December first

Although they love you, it feels like they don't care

Oh my gosh, oh my gosh, oh my gosh

You are now the finest woman on my roster

You know I'm tryna drag it over like a locker

You dancing like a movie, you been tripping offset [Chorus: Justin Bieber]

Wind it, wind it, please just press rewind it

Wind it, wind it, please just press rewind it

Wind it, wind it, please just press rewind it

Wind it, wind it, please just press rewind it [Verse 2: Tony Lanez]

I can't wait 'til the sun goes down

When you dance with me, let it go go down

I can't wait 'til the sun goes down

When you dance with me, let it go go down Ah right now, you're in that swag I can't wait 'til the sun goes down

When you dance with me, let it go go down

I can't wait 'til the sun goes down

When you dance with me, let it go go down

I can't wait 'til the sun goes down
When you dance with me, let it go go down
I can't wait 'til the sun goes down
When you dance with me, let it go go down[Chorus: Justin Bieber]
Wind it, wind it, please just press rewind it
Wind it, wind it, please just press rewind it
