

# Divide the Blackened Sky

## The Veer Union

I'm underground  
Without a sound  
Too hard to face  
My fall from grace  
Can I create  
Another fate  
Will I become  
No one? It's been so long  
I've been searching for the sun  
My world is going numb  
But I will over come  
Cause I know that I'm right where I belong  
You think my days are done  
But I will prove you wrong  
Cause I know that I'm right where I belong So I divide the blackened sky  
To try to find the light  
It's been so long  
I've been searching for the sun  
My world is going numb  
But I will over come  
Cause I know that I'm right where I belong  
You think my days are done  
But I will prove you wrong  
Cause I know that I'm right where I belong (Right where I belong x2) Now I'm falling out of this hole in the earth  
Cause I've had enough, I'm feeling less than a word  
I reach out from the dark  
I've been searching for the sun  
The world is going numb  
But I will over come  
Cause I know that I'm right where I belong You think my days my days are done  
But I will prove you wrong  
Cause I know I'm right where I belong I will over come  
(Where I belong)  
I will prove you wrong  
(Where I belong)  
So I divide the blackened sky  
To try to find  
Right where I belong!
