

Breathe In

Hit the Lights

Eyes closed and starting to whisper, I speak slow
Don't wanna give you up but I've given up lately
I wish you joy, success and happiness
A better life, it sure lose sense of you
I'm setting up to be the better
When you lost the right to think what you do
Breathe in, breathe out
Live it up, you'll never live this down
Last call, lost cause, who's counting?
Last call, lost cause, who's counting now?
Breathe in, breathe out
Live it up, you'll never live this down
Last call, lost cause, who's counting?
Last call, lost cause, who's counting now?
Nervous and numb, when conscience comes crashing
I'll keep strong, take time to find yourself
But until then, I'll be waiting on you to come around
And you will
Breathe in, breathe out
Live it up, you'll never live this down
Last call, lost cause, who's counting?
Last call, lost cause, who's counting now?
Breathe in, breathe out
Live it up, you'll never live this down
Last call, lost cause, who's counting?
Last call, lost cause, who's counting now?
Crashes to crashes, that's what it feels like
Crashes to crashes, I'll be waiting on you to come around
Crashes to crashes, that's what it feels like
Crashes to crashes
Breathe in, breathe out
Live it up, you'll never live this down
This is your last call
Breathe in, breathe out
Live it up, you'll never live this down
Last call, lost cause, who's counting?
Last call, lost cause, who's counting now?
Breathe in, breathe it out
Live it up, you'll never live this down
Last call, lost cause, who's counting?
Last call, lost cause, who's counting now?
