Face The Music

Dean Martin

with Jerry Lewis
in the movie "You're Never Too Young"
(chorus) Face the music you've got hope
(chorus) Face it face it and you'll chase it far away
(chorus) Come face the music and make your worry hurry scurry not a care will dare to stay
(chorus) The drums are drumming you should be humming
(chorus) Joy is coming coming for to make you gay
(chorus) So blow the trumpets bang the cymbals when they start to play
(chorus) Face the music play the music
(chorus) Every day's a happy day
(JL) I want to march
Face the music when you've got trouble
Face it face it and you'll chase it far away

Just face the music you'll make your worry hurry scurry not a care will bear to stay
The drums are drumming you should be humming
Joy is coming coming for to make you gay
So blow the trumpet bang the cymbal when they start to play
Face the music face the music
Every day's a happy day
Fall in
(chorus) Face the music play the music
(chorus) Every day's a happy day
