

# The Bronze

## Queens of the Stone Age

I've been waiting  
Waiting under things  
That rise in the morning  
I've been holdingHolding back so long  
You can own it  
Take it off my hands  
Do me a favorNothin' wasted  
Just finger fucked  
And busted up  
All at onceIm so lost out on the highway  
With no direction left to go  
Everyday sit up and wonder  
Where it was I started from
