

# Love Struck

[Matt Stansberry](#)

I want to know if I can let go  
I'm under her spell and she knows it so well  
But I've got to have more, her name I adore  
I dream about her and her perfect figure  
I'm under her trance. I just want one chance  
I'd be her biggest fan if I were her man I'm love struck, strung up, girl you've got me high  
I'm tied up with you and I can't shake loose  
You've got ways, your ways, so girl I must say  
I'm love struck, love struck I make a move. You play hard to get  
No one has to know. It can be our secret  
If I don't act now it'll be my biggest regret  
It's hard to stay cool. When I feel like a fool  
She's too good for me and it's easy to see  
But I'm in too deep. I've gotta have her for me Love struck, too much, her love is too strong  
And loving her is so wrong  
But I'm gonna have her and it won't be long (you know I've got to have her)  
One gaze my way this girl had me hooked  
One look that's all it took  
I'm memorized by the that look in her eyes (you know I've got to have her)
