

Turn It Up

Shaman's Harvest

Turn your radio up
Everybody around
Yeah we'll tap you right into that bang your head sound
Bring it up no need for aggravation

Wake up little girl I need you now
I'm looking for a one on one on one relationship, yeah
She's so fine, she don't mind at all
Just what are you waiting for
I know I got your love on call

Turn your radio up
Everybody around
Yeah we'll tap you right into that bang your head sound
Bring it up no need for aggravation

And then we'll turn it up
Cuz we're letting it go
And the feeling won't stop long after the show
Don't hold back let's see what you're bringing
I'm so damn hot with everybody singin'

woah ooh o oh o
woah ooh o oh o

Laissez bons je temps right now
(this is apparently french canadian for 'let the good times roll'...originally a cajun expression)

I just need five more minutes before we close our door and stop the show
She's so fine she don't mind at all
Just what are we waiting for
when the lights go down I'm ready to go

Turn your radio up
Everybody around
Yeah we'll tap you right into that bang your head sound
Bring it up no need for aggravation
And then we'll turn it up cuz we're letting it go
And the feeling won't stop long after the show
Don't hold back let's see what you're bringing

I'm so damn hot with everybody singin'

woah ooh o oh o
woah ooh o oh o
whoah oh oh o
whoah oh oh o

Turn your radio up
Everybody around
Yeah we'll tap you right into the bang your head sound
Bring it up no need for aggravation
Turn it up
Cuz we're letting it go
And the feeling won't stop long after the show
Don't hold back let's see what you're bringing
I'm so damn hot with everybody singin'

Turn your radio up
Everybody around
Yeah we'll tap you right into the bang your head sound
Bring it up no need for aggravation
Turn it up
Cuz we're letting it go
And the feeling won't stop long after the show
Don't hold back let's see what you're bringing
I'm so damn hot with everybody singin'
