# Hole In My Head

## Feeder

Remember yesterday?
Driving down the M4
The sun lit up your face
Playing all the tunes
Feeling like a child again
The pain has been erased
I feel much better anyhow
Until I see that black cloud
I got a hole in my head
And it's making me sad
Got a hole and the world keeps looking in
Got a hole in my head
And it's making me sad
Got a hole and the world keeps crashing in
Stop looking in
Hide it all away
Keeping your heart inside a box
That no one else can take
Smile it all away
Holding back a thousand lies
But that was yesterday
I love it when she comes around
Until I see that black cloud
I got a hole in my head
And it's making me sad
Got a hole and the world keeps looking in
Got a hole in my head
And it's making me sad
Got a hole and the world keeps crashing in
Got a hole in the head
Got this song in my head
Waiting for the sun to come around
Waiting for the sun to come around
Take another smoke
I though you said you'd given up?
And does your mother know?
Take another rest
Holding out my hand again
I hope that we're still friends

I got a, I got a, I got a, I got a
I got a, I got a, I got a, I got a
I got a, I got a, I got a, I got a
I got a, I got a, I got a, I got a
I got a hole in my head
And it's making me sad
Got a hole and the world keeps looking in
Got a hole in my head
And it's making me sad
Got a hole and the world keeps crashing in
I got a hole in my head
And it's making me sad
Got a hole and the world keeps looking in
Got a hole in my head
And it's making me sad
Got a hole and the world keeps crashing in
