Everytime I See Your Face

DJ Kaycee

I was lookin' everywhere to find you
By and by my intentions were good
I looked and watched where I am walkin'
When I know I shouldIf the night time turns into day
Before I say what I mean
God damn all these obstacles before me, yeahEverytime I see your face
It's like heaven opens up her gates
And I go behind I just close my eyes
I just close my eyesIf the quicksand of love and deception
Finds a way to come between you and me
Don't fret, I'm gonna cut through the darkness
And set us free, yeahAnd if you wanna just lay with me darlin'
Let the mystery silently speed
And take my tongue take my lungs if you wanna
We can try not to breathe, yeahEverytime I see your face
Somethin' overwhelms my heart with peace
And I go behind I just close my eyes
I just close my eyesEverytime I see your face
I know you are the one
I know you're more than wonderful
I know you are the oneEverytime I see your face
It's like heaven opens up her gates
And I go behind I just close my eyes
I just close my eyesEverytime I see your face
Something overwhelms my heart with peace
And I go behind I just close my eyes
I just close my eyes, yeahOh oh yeah
Everytime
I see your face
Everytime, everytime
