

# Big Sky

Hans Mayer

Big sky, I'm gonna hurt you  
Big sky, you'll remember this  
Big sky, up above the rain  
How can I ever put a stop to it  
Look you in the face again?  
Big sky, I'll never let you go  
Big sky, baby, I told you so  
Big sky, look at this swollen pride  
I got so busy looking out for you  
When were you by my side?  
When I'm breathing, when I'm sleeping  
I can think of nothing else  
All my longing, all my waiting  
All the things you never felt  
All my weeping, all my wailing  
All my standing on the shelf  
How am I ever gonna get through this  
Back to myself again?  
Big sky, I never knew you  
Big sky, let me down again

Big sky, giving you the blame  
How can I ever put a stop to this  
Look you in the face again?  
When I'm breathing, when I'm sleeping  
I can think of nothing else  
All my longing, all my waiting  
All the things you never felt  
All my weeping, all my wailing  
All my standing on the shelf  
How am I ever gonna get through this  
Back to myself again?  
Won't you say it isn't so  
Watch me falling, see me falling  
I slip through the vortex of the sky  
Darkness and light  
It's what's inside  
Darkness and light  
It's what's inside
