

# Find a Way

## Beartooth

Finally feeling change  
New life, new book with a fresh page  
I know I shouldn't feel down  
But every night these thoughts keep staying around  
And my heart it breaks  
Every time I wake up with a new case  
I know I shouldn't feel down  
Every night these thoughts keep staying around  
I get closer, it brings me further  
Or is it in my head?  
If my feet are on the ground  
My head is in the clouds  
How hard can it be to breathe?  
I sold myself for what I love  
Sometimes it's not enough  
How hard can it be to breathe?  
I've gotta find a way out  
Slowly growing rage  
Held up in the past with a dead face  
I know it's old news now  
But every night these thoughts keep staying around  
And I swear I've changed  
Why do I even complain in the first place  
I know I shouldn't feel down  
Every night these thoughts keep staying around  
I get closer, it brings me further  
Or is it in my head?  
If my feet are on the ground  
My head is in the clouds  
How hard can it be to breathe?  
I sold myself for what I love  
Sometimes it's not enough  
How hard can it be to breathe?  
I've gotta find a way out  
Find a way out  
Go I get closer, it brings me further  
Or is it in my head?  
I get closer, it brings me further  
Or is it in my head?  
If my feet are on the ground  
My head is in the clouds  
How hard can it be to breathe?  
I sold myself for what I love  
Sometimes it's not enough  
How hard can it be to breathe?  
I've gotta find a way out
