

# Whispering Grass

[Sandy Denny](#)

Why do you whisper, green grass?  
Why tell the trees what ain't so?  
Whispering grass  
The trees don't have to know Why tell them all your secrets?  
Who kissed there long ago?  
Whispering grass  
The trees don't need to know Don't you tell it to the breeze  
'Cos she will tell the birds and bees  
And everyone will know  
Because you told them once before Yes, you told them once before  
It's no secret anymore Why tell them all the old things?  
They're buried under the snow  
Whispering grass, don't tell the trees  
'Cos the trees don't need to know? Now don't you tell it to the breeze  
'Cos she will tell the birds and bees  
And everyone will know  
Because you told them once before Yes, you told them once before  
It's no secret anymore Why tell them all the old things?  
They're buried under the snow  
Whispering grass, don't tell the trees  
'Cos the trees don't need to know
