## WIZE

Applicant, I am  
Clean young flesh  
Cubicles, we merge  
And me so decent Lock up my vehicle  
Crack my walls  
I'm stealing new words  
And me so honest Someone took pictures  
Just look at her go  
Her presence exhausted me  
Like spectators we are I have no address  
Who are you?  
Kiss my arse goodbye  
The show goes rusty Simulate phone call  
Face to face  
Newspaper loose talk  
You wreck my dreams Exhibit 'A' dog  
So few of them left  
Exhibit 'B' God  
The problem of death Old sex, unclean  
Do you still need the moon?  
Recall no names  
Don't ask me, how are you? Where's my attendant  
And where is my wife  
Wait in the doorway  
While I say goodnight He looks like me  
He looks like me  
He looks like me  
He looks like me He looks like me  
He looks like me  
He looks like me  
He looks like me
